Document no: REG-PRESSURE-VESSEL-INSPECTION-SUMMARY Revision: A
Title: Pressure vessel inspection, statutory summary
Owner: Compliance register
Issued: 02 November 2024

Primary equipment: V-2101, Hot high pressure separator

Summary of statutory requirements.

Pressure vessels such as V-1101, V-2101 and R-2101 are inspected at intervals set by a competent person. Safety valves are tested and reset at least every two years. Records of every inspection and test are kept for the life of the vessel.
