Document no: THX-FH4-OM Revision: B
Title: Operation and maintenance manual, THX-FH4 fired heater
Owner: Dr. Sunita Rao
Issued: 25 August 2022

Primary equipment: H-1101, Crude charge heater

Applies to H-1101 (crude charge heater). Duty 38 MW, four passes, radiant tubes in 9Cr-1Mo alloy. Design tube metal temperature 650 degC. Burner management system requires a purge of five furnace volumes before light-off. Flame failure shuts the fuel gas valve within 3 seconds. Pass flow low trip 70 percent of design. Stack oxygen target 2.5 to 3.5 percent.
